Trailhead Triple Star Ranger | Agentblazer Innovator | 9x Salesforce Certified

PROFESSIONAL SUMMARY

Salesforce Developer with 5+ years of experience specializing in front-end engineering — Lightning Web Components (LWC), Salesforce Lightning Design System (SLDS), and UI/UX design-to-code implementation from Figma and Adobe XD. Integrates AI-driven features (Agentforce, Prompt Builder) into user-facing Salesforce experiences and delivers accessible (WCAG 2.1 AA), high-performance interfaces across Experience Cloud, Financial Services Cloud, and Health Cloud. Reduced component load times by 50% through Apex and reactive-property optimization, and refactored 15+ legacy Aura/Visualforce components into modern, tested LWC architecture. Brings hands-on experience in React JS, Git-based collaborative development, SFDX/Salesforce CLI workflows, and CI/CD (Gearset), with a consistent record of mentoring developers and partnering directly with UX/UI design and engineering teams to translate high-fidelity prototypes into pixel-perfect, production-ready interfaces.

CORE SKILLS

Lightning Web Components (LWC) • UI/UX & Design-to-Code (Figma) • Salesforce Lightning Design System (SLDS) • Agentforce • Prompt Builder • React JS • Apex Development • Experience Cloud • WCAG 2.1 AA Accessibility • Git / CI/CD (Gearset)

TECHNICAL SKILLS

Salesforce Development: Apex, SOQL, Governor Limits, LWC (lifecycle hooks, reactive properties, event-driven communication), Aura Components, Visualforce, Lightning Web Runtime (LWR), Flows

UI/UX & Design-to-Code: Figma to Code, Adobe XD to Code, Salesforce Lightning Design System (SLDS), Responsive Design, Cross-Browser Testing, WCAG 2.1 AA Accessibility, Performance Optimization

Clouds & Platforms: Experience Cloud, Financial Services Cloud, Health Cloud, OmniStudio/Vlocity (FlexCards, OmniScripts, DataRaptors)

Agentforce & AI: Agentforce (agent topics & actions), Prompt Builder (prompt template configuration), Salesforce Certified AI Associate, AI-driven personalization

Marketing Cloud: Email Studio, AMPscript, Journey Builder, Cloud Pages, Data Extensions, Personalization

Frontend: HTML5, CSS3/SCSS, JavaScript (ES6+), React JS, Bootstrap, jQuery, Ajax

DevOps & Tools: Git, GitHub, Gearset, SFDX/Salesforce CLI, VS Code, JIRA, Postman, NPM, Node.js, Litmus, Agile/Scrum

WORK EXPERIENCE

Salesforce Consultant | Wipro

Greater Noida, India | Sep 2024 – Present

- Built Lightning Web Components and Apex integration layers for American Honda (Experience Cloud Commerce Portal) and St. James's Place (Experience Cloud Financial Services), translating Figma designs into production-ready UI while partnering directly with UX/UI design, engineering, and business stakeholders.
- Reduced component load time 50% (3.2s → 1.5s) through cached Apex, reactive property optimization, reduced Apex round-trips, and elimination of unnecessary DOM re-renders.
- Developed a reusable LWC/SLDS component library, accelerating delivery cycles from 10 days to 6–7 days (~35%) across all new Experience Cloud features.
- Refactored 15+ legacy Aura and Visualforce components into governor-limit-compliant, tested LWC architecture, reducing technical debt.
- Led peer code reviews and mentored a team of 6 developers on LWC composition, Apex testing practices, and performance optimization patterns.
- Maintained a Git-based source control workflow with structured pull request reviews and CI/CD pipelines (Gearset, SFDX) across sandbox, UAT, and production.
- Enforced WCAG 2.1 AA accessibility — keyboard navigation, semantic HTML, screen-reader support — resolving 300+ production defects within SLA, sustaining a 4.5/5 CSAT score.

Achievement: Circle of Excellence Award — resolving high-impact production defects and improving platform stability.

Developer | Mphasis Silverline

Bengaluru, India | Aug 2022 – Sep 2024

- Delivered Apex, LWC, FlexCard, and OmniScript solutions across 5+ Financial Services and Health Cloud implementations for 8+ enterprise clients (Republic Finance, Arvest Bank, Wealth Enhancement Group, Peoples Bank, Teledoc, Five Star Bank, Beatport), improving user journey completion rates 20%.

- Designed reusable LWC/OmniStudio frameworks for 4 client-facing Experience Cloud portals using SLDS patterns, reducing per-portal development time approximately 30%.
- Developed responsive AMPscript emails validated across Outlook, Gmail, and Apple Mail using Litmus, ensuring consistent rendering for Marketing Cloud campaigns.
- Collaborated with solution architects and domain consultants to translate design intent into precise, accessible component implementations aligned with Financial Services and Health Cloud data models.
- Contributed to Foundry, a reusable component/OmniStudio accelerator, reducing implementation timelines 35% across 3 engagements and enabling pre-sales demos.
- Maintained consistent SLDS styling and responsive design standards across 6+ concurrent client projects, ensuring cross-cloud UI consistency.

Achievement: *Measure of Excellence, Circle of Excellence, and You Rock Awards — from clients, stakeholders, and project managers.*

UI Developer | DJT Corporation and Investments Pvt. Ltd.

Noida, India | Nov 2021 – May 2022

- Built responsive e-commerce interfaces using Bootstrap 4, CSS3, and JavaScript for House of Believe, Deerika, Mall Fifty One, Pharma Aviorion, and Smart Cart, translating brand design specifications into production-ready components.
- Developed the Smart Cart web application, enabling in-store product scanning and seamless digital checkout, and built the House of Believe e-commerce platform, which helped generate over ₹5 lakh in monthly revenue.

Achievement: *Formal appreciation from MD and stakeholders for delivery on the House of Believe and DJT brand websites.*

Front End Developer | Escade Technologies

Aligarh, India | Jan 2021 – Oct 2021

- Translated design mockups into fully functional, responsive front-end components using HTML5, CSS3, and JavaScript across 5+ web projects.
- Conducted usability testing and resolved UI defects, reducing reported issues by 30% across the development cycle.

SALESFORCE CERTIFICATIONS

- Salesforce Certified AI Associate (Retired)
- Salesforce Certified Platform User Experience Designer
- Salesforce Certified OmniStudio Consultant
- Salesforce Certified OmniStudio Developer
- Marketing Cloud Personalization Accredited Professional
- Salesforce Certified Marketing Cloud Email Specialist
- Salesforce Certified Marketing Cloud Engagement Developer
- Salesforce Certified Platform Foundations (does not expire)
- Salesforce Certified Platform Developer I

TRAILHEAD SUPERBADGES

- Agentforce Service — customized an Agentforce Service Agent for customer inquiries and bookings
- Prompt Builder Templates — built Prompt Builder templates for AI-powered engagement
- Record-Triggered Flow — automated processes for efficient, insightful record management
- User Experience Superbadge Unit — designed intuitive Salesforce user experiences with Lightning tools
- Lightning Web Components Specialist — built scalable Lightning Web Components for modern Salesforce apps

EDUCATION

Master of Computer Applications (MCA), Computer Science — Arunachal University of Studies, 2021–2023

Bachelor of Computer Applications (BCA), Computer Science — Gagan College of Management and Technology, 2018–2021
