PROFESSIONAL SUMMARY

Frontend Engineer with 5+ years of experience building production web applications using React.js, Vue.js, JavaScript, HTML, and CSS, with deep experience in Salesforce front-end development using LWC, Experience Cloud, and OmniStudio. Experienced in building reusable component libraries and design-system-driven interfaces, translating Figma designs into responsive, accessible production UI across enterprise platforms. Delivered measurable improvements including a 50% reduction in portal load time and 35% faster feature delivery through component architecture, performance optimization, Git-based CI/CD, and API/Apex integrations. Brings hands-on experience with Agentforce and Prompt Builder, along with experience leading code reviews and mentoring a team of six developers.

TECHNICAL SKILLS

- Frontend Engineering:** React.js, Vue.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, Advanced CSS, Responsive Design, Complex Layouts, Animations, DOM Optimization, Cross-Browser Compatibility, REST API Integration
- UI Engineering & Design Systems:** Figma-to-Code, Adobe XD-to-Code, Salesforce Lightning Design System (SLDS), Design Tokens, Reusable Component Libraries, Responsive UI, WCAG 2.1 AA Accessibility, CMS, Localization/i18n
- Backend & Data:** Node.js, MongoDB, SQL, SOQL, Apex, REST APIs, API Integration
- Engineering & Delivery:** Git, GitHub, CI/CD, Gearset, SFDX/Salesforce CLI, Postman, JIRA, Agile/Scrum, Code Reviews
- AI & AI-Assisted Development:** Claude, ChatGPT, Google Gemini, Agentforce, Prompt Builder, Prompt Templates, AI-assisted development
- Salesforce Platform:** Salesforce, Lightning Web Components (LWC), Experience Cloud, OmniStudio, Data Models, Salesforce CMS, Localization/i18n
- Marketing Cloud:** Email Studio, Journey Builder, Automation Studio, Content Builder, Contact Builder, AMPscript, Data Extensions, CloudPages

PROFESSIONAL EXPERIENCE

Salesforce Consultant | Wipro

Greater Noida, India | Sep 2024 – Present

- Built reusable Lightning Web Components and Apex integration layers for enterprise Experience Cloud portals, translating Figma designs into production-ready, responsive UI in collaboration with design and engineering teams
- Implemented Salesforce CMS-driven content and localization capabilities for Experience Cloud experiences, supporting reusable content structures and localized user experiences across different markets and audience requirements.
- Reduced component load time 50% (3.2s → 1.5s) through cacheable Apex, reactive-property optimization, reduced Apex round-trips, and elimination of unnecessary DOM re-renders.
- Built a reusable LWC component library using Salesforce Lightning Design System (SLDS) patterns and design tokens, accelerating delivery cycles from 10 days to 6–7 days (~35%) across all new Experience Cloud features.
- Refactored 15+ legacy Aura and Visualforce components into modern, governor-limit-compliant, tested LWC architecture, reducing technical debt.
- Led peer code reviews and mentored a team of 6 developers on component composition, testing practices, and performance optimization patterns.
- Maintained Git-based source control with structured pull-request reviews and CI/CD pipelines (Gearset, SFDX) across sandbox, UAT, and production environments.
- Resolved 300+ production defects within SLA while enforcing WCAG 2.1 AA accessibility — keyboard navigation, semantic HTML, screen-reader support — sustaining a 4.5/5 client CSAT score.

Achievement: Circle of Excellence Award — resolving high-impact production defects and improving platform stability.

Developer | Mphasis Silverline

Bengaluru, India | Aug 2022 – Sep 2024

- Delivered LWC, FlexCard, and OmniScript-based UI — component-driven interfaces built with JavaScript, HTML, and CSS on the Salesforce platform — across 5+ Financial Services and Health Cloud implementations for 8+ enterprise clients (Republic Finance, Arvest Bank, Wealth Enhancement Group, Peoples Bank, Teladoc, Five Star Bank, Beatport), improving user journey completion rates 20%.
- Designed reusable LWC/OmniStudio component frameworks for 4 client-facing Experience Cloud portals using SLDS design patterns, reducing per-portal development time approximately 30%.
- Collaborated with solution architects and domain consultants to translate design intent into precise, accessible component implementations aligned with Financial Services and Health Cloud data models.
- Contributed to Foundry, a reusable component/OmniStudio accelerator, reducing implementation timelines 35% across 3 engagements and enabling pre-sales demos.
- Maintained consistent SLDS styling and responsive design standards across 6+ concurrent client projects, ensuring cross-cloud UI consistency.

Achievement: Measure of Excellence, Circle of Excellence, and You Rock Awards — from clients, stakeholders, and project managers.

UI Developer | DJT Corporation and Investments Pvt. Ltd.

Noida, India | Nov 2021 – May 2022

- Developed production web applications and full-page user experiences using **React.js** and **Vue.js**, building reusable frontend components with JavaScript, HTML5, CSS3, and Bootstrap 4.
- Translated design concepts and UI requirements into responsive, interactive frontend interfaces, focusing on component reusability, cross-browser compatibility, usability, and consistent visual implementation.
- Built frontend features for multiple client-facing web and e-commerce projects, working across different business requirements and adapting reusable UI patterns to individual product experiences.
- Developed the **Smart Cart** web application using React.js, implementing frontend functionality supporting in-store product scanning and digital checkout workflows.
- Worked on the **House of Believe** e-commerce storefront using Shopify, implementing and customizing the frontend experience to match brand requirements and responsive design expectations.
- Integrated frontend applications with backend/API services where required, consuming application data and connecting UI components with business workflows.
- Debugged frontend issues, performed usability testing, and resolved UI defects across browsers and devices to improve stability and overall user experience.
- Collaborated with designers and other developers throughout the development lifecycle, translating requirements and visual designs into production-ready web interfaces.

Front End Developer | Escade Technologies

Aligarh, India | Jan 2021 – Oct 2021

- Developed production frontend features and complete responsive pages using **React.js**, **JavaScript**, **HTML5**, and **CSS3**, translating design mockups into functional and reusable user interfaces.
- Built reusable React components and interactive UI elements while maintaining consistent layouts, responsive behavior, and cross-browser compatibility across multiple client projects.
- Worked closely with design and development teams to translate visual requirements into production-ready frontend implementations while maintaining usability and visual consistency.
- Implemented frontend interactions and application workflows using JavaScript and React.js, integrating UI components with application data and backend/API services where required.
- Performed usability testing and frontend debugging to identify layout, interaction, and functional issues across development cycles.
- Resolved UI defects and refined frontend implementations based on testing and stakeholder feedback, contributing to an approximately **30% reduction in reported UI issues**.

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

Salesforce Certifications

- Salesforce Certified Platform Developer I — Jul 2026
- Salesforce Certified AI Associate — Dec 2024 (Retired)
- Salesforce Certified Platform User Experience Designer — Nov 2023
- Salesforce Certified Platform Foundations — Oct 2023
- Salesforce Certified Marketing Cloud Engagement Developer — Sep 2023
- Salesforce Certified Marketing Cloud Email Specialist — Apr 2023
- Salesforce Certified OmniStudio Consultant — Jan 2023
- Salesforce Certified OmniStudio Developer — Jan 2023

Salesforce Trailhead Superbadges

- Agentforce Service — Jul 2026
- Prompt Builder Templates — Jul 2026
- Record-Triggered Flow Superbadge — May 2026
- User Experience Superbadge — Apr 2024
- Lightning Web Components Specialist — Aug 2022

Other Credentials

- Zero to Hero in Lightning Web Components — Udemy | Mar 2026
- Jitterbit Certified Developer Exam — Jitterbit | Nov 2023 (*Expired Nov 2025*)
- The Complete 2022 Web Development Bootcamp — Oct 2021
- Responsive Web Design — freeCodeCamp | Aug 2021
- Certified Ethical Hacker (CEH) — Internshala | Oct 2020

EDUCATION

Master of Computer Applications (MCA), Computer Science — Arunachal University of Studies, 2021–2023

Bachelor of Computer Applications (BCA), Computer Science — Gagan College of Management and Technology, 2018–2021
